Lufthansa Systems – What we do

Integration of Lido Solutions with AIXM and Digital NOTAM

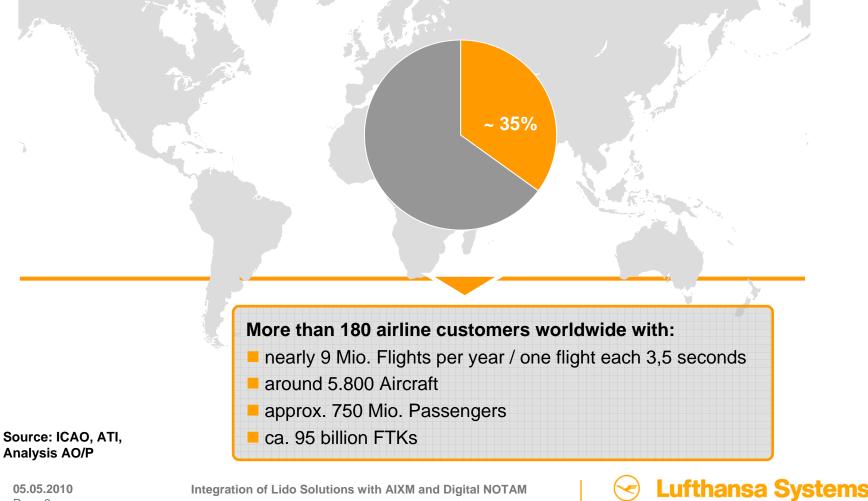

Aeronautical Information as the Basis of the Airline Operations Solutions Business

05.05.2010 Page 2 Integration of Lido Solutions with AIXM and Digital NOTAM

Today 35% of all worldwide flights are performed with Lido Aeronautical Data

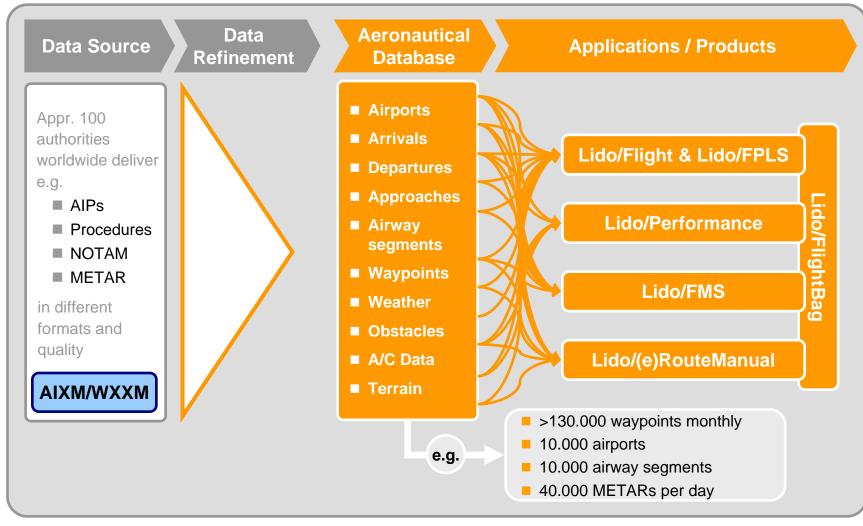

25,2 Mio. flights in total (2009) / Market shares LSY in % of flights

Integration of Lido Solutions with AIXM and Digital NOTAM

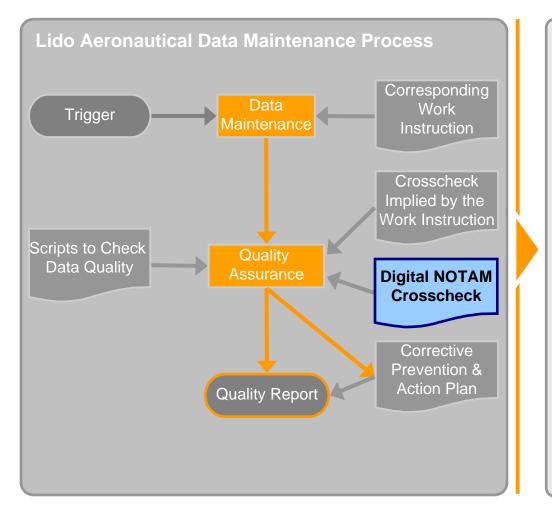

Today, all Lido Applications are directly linked and dependent on Aeronautical Data...

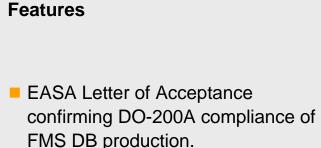

Integration of Lido Solutions with AIXM and Digital NOTAM

... and hence Quality of Aeronautical Data is paramount... and will be paramount in the Future

- Continuous staff training and staff qualification monitoring.
- Corrective Prevention and Action Plan (CPAP).
- Monthly quality reports.
- Regular quality assurance action plan from audits.
- Internal Monthly Report / KPI.

Integration of Lido Solutions with AIXM and Digital NOTAM

Planning – Briefing – Conduction – Assistance A Flight with Lido

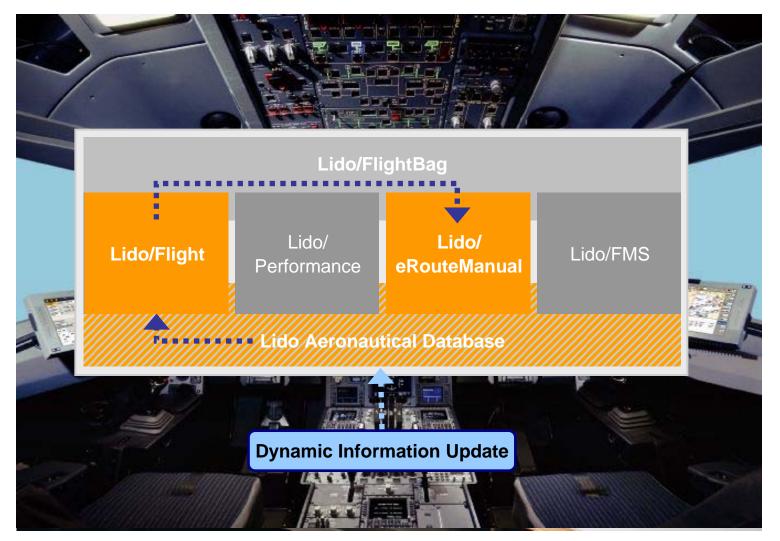

Scenario

A regular flight from Denver to Munich

- Flight Planning Lido/Flight route optimization based on weather conditions and restrictions
- Crew Briefing Lido/Flight creation and distribution of briefing package
- Flight Conduction Lido/eRouteManual navigation with dynamically updated aeronautical charts
- In-flight Assistance Lido/Flight + Lido/eRouteManual Re-optimization of route based on dynamically updated information

Integration based on Digital Aeronautical Data

Conclusion

- Scenario is dependent on the availability of digital aeronautical data and (affordable high-bandwidth) datalink.
- Selection and control of information for operational use is important.
- Lufthansa Systems "digitalizes" aeronautical and weather data from heterogeneous classic formats.
- Lufthansa Systems appreciates the availability of digital data.
- Quality assurance processes and data refinement will remain paramount.
