How can you get more involved?

- United States government
 - (and government sponsored contractors)
 - Time and Effort commitment
 - Participate in the US Technical Working group
 - See Brett Brunk (FAA) or Jeff Bell (NGA)
 - Periodic technical working group meetings
 - Prioritize issues, Work on solutions and review, Present to international AIXM project team

Summary

- Aims were to;
 - Inform
 - Discuss
 - Confirm &
 - Agree
- Were the Aims achieved?
 - From the discussions/feedback – Yes
- Where next?

Summary

- A pause for thought – say a month
- Review comments &
- Prepare release of draft model for June
- Think on how the model can be used – it can only meet your needs if you have input
- Remember the Congress

Conclusion

- So a successful conclusion
- Thanks to you presence & participation
- A Global response to a Global project
- The way forward in matters AIS & AIM

Conclusion

- & finally the success was due to the excellent logistics arrangements by Maria
- & to:
- Barbara,
- Eddy,
- Brett,
- Christian
- Their show, their project, their success.
My thanks & I guess yours to the Team

A global commitment...

*Your presence here today shows
the global commitment to making
AIXM a success.*

THANK YOU!
